	25 August 1967	
MEMORANDUM	FOR : Mr. Parrott	
SUBJECT	: Interim Handling of TOD Data	1 1 1 1
1. Much of	the CIA data that will be prepared for the TOD,	1
other contributor relating toactivities, is inherently sensitive in nature and its protection is particularly a responsi-		STA
bility of the DCI.	We in NIPE cannot control what DOD does	:
but we can hold t	ained from the organizations under its control the line as an interim measure insofar as trades	
	and DOD data are concerned.	
until we can deve	event I have recommended to that elop a satisfactory control system for TOD will continue that CIA data will not be given	STA
this goes for the	DOD and BOB members of the TOD committee.	1. O want do common of any
developed until ware to get the TO	one have a very clear picture as to what people of the contributions	
such data. Unce	etc., and what use they are going to make to coordinated use of TOD data by DOD elements	e comme i fere e com es pr
by DOD organiza	evel to justify or cut down the programs proposed ations, and/or by the BOB to recommend cuts	
in programs, we Uncoordinated u undesirable.	ould be in my view a highly undesirable situation. se of DOD data by the CIA would be equally	
3, I have a with favor by	so, in order to	STA
save wear and to suggest that we for the time being	not burden them with the details of this policy ng but simply retain CIA's TOD data within the	
confines of its F of its secure has worked out.	PB until a satisfactory solution to the problem andling within the "TOD Community" can be
